

Syntech Fuel Warranty Document

This Fuel Warranty document outlines the terms and conditions under which our Biofuel, produced to BS/EN 14214 specifications, is warranted by Syntech Biofuel for use as a B100 drop in replacement for standard fossil Diesel. The Biofuel is manufactured in compliance with industry standards to ensure high quality and performance. Our commitment is to provide you with a reliable and efficient fuel solution for your low carbon fuel needs.

01 Biofuel Specifications:

The Biofuel provided under this warranty adheres to the BS/EN 14214 standards for biodiesel. It is produced using high-quality feedstock and advanced processing methods to deliver consistent and reliable performance. The Biofuel is rigorously tested multiple times internally during our production process by independent UKAS laboratory (Intertek) to ensure it meets the required quality and performance criteria.

02 Fuel System Protection

This warranty guarantees that our Biofuel will not cause harm or damage to your fuel management system when used in the same manner according to the manufacturer's recommendations for standard diesel. The term "fuel management system" encompasses all components designed to store, handle, and utilise fuel, including but not limited to fuel tanks, fuel lines, pumps, filters, injectors, and engines. We stand behind the quality of our Biofuel and its compatibility with your system.

03 Performance Assurance

We ensure that our Biofuel will meet the specified standards for density, viscosity, sulphur content, cetane number, water content, total contamination, oxidation stability, acid value, ester content, and other relevant parameters. These specifications are verified through Intertek analysis, ensuring that the Biofuel will not negatively affect the engine's performance.

04 Quality Control

Our Biofuel undergoes stringent 36 point quality control check to maintain consistency and reliability. We continuously monitor and adjust the production process to meet the required specifications, providing you with a high-quality low carbon fuel product.

05 Warranty Claims

In the event of any issues or concerns regarding the performance of the Biofuel in your fuel management system, please contact us immediately. We will investigate the matter and verify the issue with an independent body. Any valid warranty claims will be addressed promptly.

06 Exclusions

This warranty does not cover damages or issues resulting from:

1. Improper storage, handling, or usage of our Biofuel.
2. Deviations from the manufacturer's guidelines and recommendations for service and maintenance.
3. Use of Syntech Biofuel in systems or engines not designed or recommended for diesel.
4. User error or mismanagement of the fuel management system or equipment as a whole.

07 Limitation of Liability

Our liability under this warranty is limited to the replacement of the Biofuel or reimbursement of the purchase price or cost of the repair or replacement of damaged parts of an equipment fuel system, whichever is the lesser. We are not liable for any indirect, incidental, or consequential damages, including but not limited to loss of profits, downtime, arising out of the use or inability to use our Biofuel.

08 Acceptance

By using our Biofuel and accepting this Fuel Warranty, you acknowledge and agree to the terms and conditions outlined in this document. You can have peace of mind knowing that your fuel management system is protected and supported by a reliable and quality fuel product. We are committed to ensuring your satisfaction and providing you with a trusted and efficient low carbon fuel solution.
